Choosing Which
Items You'd Like
To Pay For

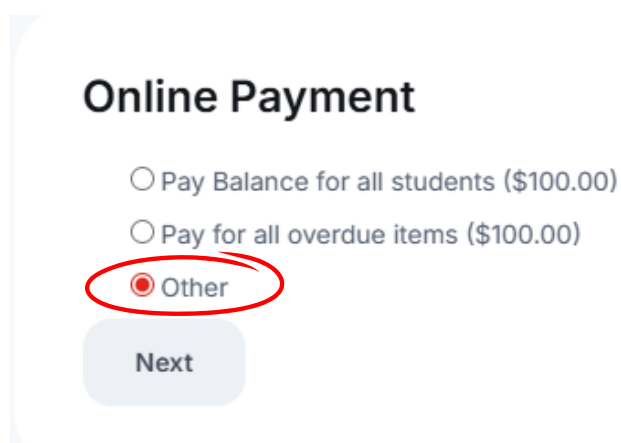

You do not have to pay for all outstanding items at once. This option is helpful if you need to keep dancer payments separate or use multiple payment methods.

You can choose to pay for select charges by following these steps on a computer (the app will look slightly different but have a similar process):

1. Log into the parent portal and go to “Pay Online” found in the “Pay” drop down menu.

2. Select “Other” and then click “Next.”

3. Use the drop down menus to select which dancer (if you have multiples) and which fee you'd like to pay for. You can also input a different pay amount if you are choosing to pay in increments. Once you have everything set the way you want, click "Add to Payment."

Online Payment

Pay for:

Kal

2025-26 Season Costume Fee: Funk Hip Hop Crew

Pay Amount:

100.00

Add to Payment

4. If you would like to add additional items to your payment, follow the same process of selecting your dancer, the item, inputting how much you want the payment to be (if not the full amount), and selecting "Add to Payment." Once you are finished adding items to your payment, click "Next."

Select item...

Payment Items

Kal	2025-26 Season Costume Fee: Funk Hip Hop Crew	100.00	
Total Payment:		100.00	

5. The next page will show how much your subtotal is and how much the convenience fee will be. If you would like to avoid this convenience fee you will need to drop off cash or check at the studio by the deadline to avoid your card being charged (deadlines are typically on the 5th of that month). Once you have verified that this payment will be how much you want, click “Make Payment” and follow the prompts to complete your payment.
